• **Existing users**
  – Login: Current
  – Password: Current

• **New Users**
  – Can be created by [Master User](mailto:Master.User@numeca.com)
  – Login: company email address
  – Password: sent by email
    → set by company Master User

**NOTE 1:** The Master User must be identified for your company. This person’s role will be to manage the access of the different NUMECA users in your company.

**NOTE 2:** Allocation of this special User profile has been done arbitrarily by NUMECA in the light of this migration. You can contact your license manager ([license@numeca.be](mailto:license@numeca.be)) if the Master User needs to be changed.

Welcome

Fine/Marine seminar: Improving ship design

NUMECA International in cooperation with Van Oossanen naval architects is pleased to bring you this exciting seminar on how to improve ship design using Fine/Marine.

Get the chance to listen and speak to NUMECA, Van Oossanen and various industry leaders and gain insights on:

- How Computational Fluid Dynamics (CFD) using Fine/Marine can shorten your design time and help you save money in the process
- How to implement this technology and concepts in your company

Key benefit: as an industrial participant, you will be able to request a FREE benchmark to showcase the technology directly on your application.
